

B. Office Districts

1. O Office Zoning District

The O Office Zoning District is intended to provide for an environment of low intensity office and service uses, mixed with residential uses. The O District may additionally serve as a transition between single-family residential areas and more intensely developed commercial or industrial areas within the City of Knoxville.

2. OP Office Park Zoning District

The OP Office Park Zoning District is intended to accommodate large office developments and office parks/campuses. The district is oriented toward larger-scale complexes that may include accessory services for employees such as personal services, restaurants, and retail establishments. District standards are intended to guide the development of office as a more campus-like environment.
